

True Voice®

CONFERENCE MICROPHONE GM-5

Product Numbers: GM-5

Product description: The GM-5 True Voice is a uniquely shaped high-sensitivity condenser microphone designed for use in lecture halls, houses of worship or in announcement applications. The Microphone is equipped with the function of selecting Phantom source from the Amplifier/Mixer or using an external PIN to act as Phantom source for the Microphone. GM-5 is as easy to use as other gooseneck microphones, just "Plug and Play".

Specification:

Specification	Data
Element	Condenser Microphone
Frequency Response	60Hz ~ 15KHz
Sensitivity	47dB/±3dB (1KHz)
Reference distance	15 - 50cm
Output impedance	200Ω
Maximum bearing	135 dB
S/N	66dB.1KHz
Dynamic range	111dB.1KHz
Power supply	DC 3V / 48V (phantom)
Weight	550 gram
